## GPS MAPS UPDATES

In order to provide you with the most current map and adventure information available, we upgrade our GPS maps every year!

### – Why should I update?

Upgrades may include new land classifications, extra road and trail coverage, new Adventure POIs and more. Whether you are out hunting, fishing, camping, hiking, paddling, exploring forest service roads in your off-road vehicle or ripping around on your ATV, dirt bike or snowmobile, Backroad GPS Maps' annual updates are crucial for having the most current and accurate data possible.

At Backroad Mapbooks, we go the extra mile to provide you with annual updates and enhancements for our GPS maps. We are constantly upgrading and refining our industry-leading road and trail networks as well as other features such as adding bathymetric (depth) charts, refining the Oil & Gas data and searchable township grids, and expanding on and updating Crown land areas. No matter which part of the country you find yourself in, and no matter what type of adventure you are on, Backroad Mapbooks has you covered!

## See how much has changed over the years [Version Changes](#)

### – How much does it cost?

**60-Day Guarantee:** Updates are FREE for 60 days after you register your maps in your account.

**After the 60-day period:** You are eligible for a discount of up to 80% regular price. Login into your account to find out more

**Earn FREE Updates:** That's right! We offer free updates for GPS users in exchange for tracks and waypoints. Whether it is a new trail or road, campsite, boat launch, gate or any other Point of Interest, we are able to improve our maps one customer at a time. After all, there is no more accurate information than that which comes directly from the backcountry.

### – Can I update my maps at home?

Yes, you can choose to download our new maps and load them into your existing registered card using your home computer or request a new SD card delivery option.

### – Can I request a new SD card?

Yes, you can upgrade your SD card to a larger size or upgrade from a provincial map to a combo map at a discounted price. Registered users can also replace damaged or lost SD cards (certain fees apply).
